

Global reach. Financial strength. Local authority

Liberty International Underwriters (LIU) is part of the Specialty Risks division of global Liberty Mutual Insurance – a Fortune 100 company with an S&P rating of 'A' (strong) – established over a century ago. Today, LIU Asia Pacific employs more than 300 people across the region, among them underwriters and claims professionals with broad industry experience and significant local authority.

LIU's clients benefit from this powerful combination of stability, experience, financial strength, global reach and local authority.

Specialist underwriters

LIU's underwriters are focused, disciplined and consistent: we believe this is the best way to do business. Our specialists have the technical ability and market knowledge to provide tailored insurance products that respond to client needs.

Understanding our clients' business is critical to what we do. LIU works closely with brokers and clients to get to know their industry from the inside out.

Integrated team

Our specialist claims professionals draw on a wealth of experience and knowledge gained in jurisdictions around the world. The team works collaboratively with underwriters, risk engineers and actuaries to understand both the policy and the client's needs.

All claims are managed to allow for well-informed, flexible decisions, loss mitigation, high-quality defences and reasonable settlements.

As a mutual, we focus on remaining financially stable in order to be able to pay our policyholders' claims. Backed by the financial strength of our parent company, and with our proven track record, experience and stability, we are confident in our ability to do just that.

Our integrated team understands the client's business and their policy needs

Casualty/General Liability

Our products cover a spectrum of risks, from small to medium enterprises to large corporate, government, construction or infrastructure projects, as well as high-hazard risks associated with sports, rail, aviation, marine, offshore or overseas operations, US exports, chemical, petrochemical and oil and gas operations.

Construction

Our team of highly experienced construction underwriters and engineers combines technical understanding with significant underwriting experience and market-leading capacity to deliver risk transfer solutions for energy, process and heavy industries, as well as for building, infrastructure and civil engineering projects.

Property

Our specialist team's many years of industry experience gives them an in-depth understanding of material damage and business interruption cover. We offer a full-service proposition through a strong combination of skilled underwriting, risk engineering support and fuss-free claims.

Accident & Health

We offer a customer-focused range of corporate Accident & Health insurance products and a 24/7 integrated emergency assistance and claims management service.

Exploration & Production

Our highly technical global team is skilled in handling even the most complex Exploration & Production risks.

Warranty & Indemnity

For companies engaged in buying or selling a business, our Warranty & Indemnity insurance can facilitate the transaction by covering some of its potential risks.

Energy/Power Generation

We offer an innovative, flexible product, closely geared to the energy sector and to our clients' changing needs. These products include on- and offshore operations and construction, heavy industries and power generation. Our clients benefit from cross-class products and bespoke policy cover from our experienced underwriters, risk engineering specialists and committed claims team.

Global Financial Risks

As a leading provider of Credit and Political Risk cover, we insure against credit default by private or sovereign entities and against the country risks associated with investing in emerging markets. Our global client base includes international banks, multinational corporates and government agencies.

Financial Institutions

As a leading insurer in this sector, we offer tailor-made cover for investment managers. Our Investment Manager's Insurance product, offering Professional Indemnity, Directors' & Officers' and Crime covers, can be customised to meet the requirements of today's fund manager.

Marine

Our specialists cover General Cargo, Project Cargo with Delay in Start-up, Marine Liabilities, Commercial Hull and Ship Builder's Risk products. We provide tailored risk solutions, capacity and service to our clients through our network of global marine professionals, claims and risk engineering services.

Professional Indemnity

Our skilled underwriters can arrange cover on a primary or excess basis for both traditional and emerging professions, including information technology and telecommunications consultants, management consultants, engineers, estate agents, property managers and corporate advisers.

Cyber

Our specialist cyber risk underwriters have access to our global network of skills and experience. We offer a product encompassing a wide range of first and third party risks and a tailored approach to incident response.

Surety

We provide creative solutions for surety bonds and guarantees for clients in the mid-market and large public or privately-owned sectors. We specialise in serving the construction, engineering, manufacturing, energy, defence, resources, transport and retail industries, among others.

Environmental Liability

With gaps in pollution cover becoming increasingly apparent under many traditional liability policies, our highly experienced team underwrites a wide range of environmental exposures. Our products provide broad and comprehensive coverage for pollution liability.

Crisis Management

We help clients manage major crises and mitigate the risk of product contamination and product recall for food and non-food sector events. Our Kidnap & Ransom cover provides corporations around the world with prevention, training and response services.

Terrorism

LIU offers an extensive range of War & Terrorism cover on a regional and global basis.

Directors' & Officers' Liability

Both brokers and clients benefit from our first-class underwriting and claims service. We are able to write Directors' & Officers' Liability, Side A Excess and Initial Public Offering covers.

LIU has offices in Sydney, Melbourne, Perth, Adelaide, Brisbane, Hong Kong, Singapore and Malaysia.
